

# Industry Spotlight

The logo for Brand-Nu, featuring the company name in a bold, white, sans-serif font, rotated 90 degrees counter-clockwise, set against a red rectangular background.A vertical red banner with the text "Pharmaceutical Focus" written in white, bold, sans-serif font, oriented vertically from bottom to top.

## **Brand-Nu Laboratories, Inc. Overview**

Brand-Nu Laboratories has a long history supplying high purity raw materials, nutritional ingredients, APIs, and excipients to the pharmaceutical industry. Founded in 1956 and ISO 9001 registered since 1998, Brand-Nu Laboratories has continued to grow and modify its products and service offerings to anticipate the needs of its pharmaceutical customers.

## **Services for Pharmaceutical Customers**

- Warehousing following cGMP guidelines and compliant with IPECs Good Distribution Practices
- Change control and notification, total traceability, and tracking purchases by lot number
- Assisting with quality conformance requirements through our review and management of customer specifications as part of our document control system
- Coordinating the acquisition of all raw material documentation, including allergen, residual solvent, BSE/TSE, GMO, analytical methods, and stability testing information
- Customer specific order configurations, including labeling and palletizing, and accommodating special lot requests, such as requesting a specific lot or not a specific lot since it was previously received
- Summary billings, on-line ordering
- Regular meetings with buyers/planners/schedulers to ensure consistent supply, effective communication, and enhancing our understanding of customer objectives and specific requirements
- Problem solving, coordinating technical meetings with manufacturers, and addressing Corrective Action Requests
